Intermec®

I am demanding.

I am dedicated.

And I believe
good enough never is.

Intermec **70 Series**

Built for the real titans of industry.

The 70 Series is the new family of next-generation, ultra-rugged mobile computers, purpose-built for their environments. Four breakthrough products built on the same powerful platform, engineered to give users everything they need—including indestructible keypads, unbeatable battery life and onboard device health monitoring—with no trade-off in size, ruggedness or functionality.

All performance, no compromise. Just what you've been waiting for.

1-936009-900	INTERMEC, REAL TIME CLOCK(RTC), PROGRAMMED, SPARE	$85.00

PF8 Printer

Setting a new standard in IT friendliness, the compact, easy-to-use PF8 desktop printers dramatically simplify deployment and support. Quiet, reliable operation and intuitive design makes the PF8 the right fit for light duty labeling applications in transportation/courier, healthcare, in-store retail and office environments.

321-576-004	INTERMEC, CABLE, USB-A TO USB-B, 2METER ROHS	$35.00

PM4i Printer

Smart, strong and secure, the popular PM4i industrial bar code printer meets the need of mission-critical applications. Its multiple interfaces, secure wireless connectivity (WPA2), CCX and WiFi certification, and support for IPv6 ensure easy integration and long-term scalability. Stand-alone Smart Printing eliminates PC costs and complexity, and enables quick ROI.

SD61 Wireless Base Station

The SD61 allows you to more easily manage your Bluetooth scanners. This secure connection acts as a gateway to your host PC for up to 7 Intermec Bluetooth scanners. The SD61 houses the drivers to interact with the host PC, which means users need only scan the identifying bar code on the scanner to associate to the station and the host PC.

IF30 RFID Reader

The IF30 is a cost-effective, high performance fixed reader that reliably reads and writes UHF RFID tags in “RF noisy” environments. The IF30’s receive sensitivity enables large populations of tags to be interrogated at high speeds, which is critical to many use cases involving dock doors, portals and conveyors.

IF61 RFID Smart Reader

The Intermec IF61 smart reader is a powerful combination of reader and network appliance for running RFID applications, delivering faster processing and localized intelligence. Applications written in Java or C# .Net can run directly on the IF61, enabling it to filter, store and manipulate information from tags and send to a server in a required format and eliminating the requirement for a separate industrial PC.

IP30 RFID Portable Reader

The Intermec IP30 add-on passive UHF RFID handle is the new leader in handheld RFID readers. The modularity of the IP30 and the RFID-readiness of Intermec mobile computers mean the power of RFID can be literally added in a snap today or at any point in the future. The IP30 supports both in-premise and in-field applications such as warehouse operations, enterprise asset management, in-transit-visibility, direct store delivery and exceptions handling.
